7760	1. All pricing provided is charged			
7761	Quoted calibration prices are subject to verification of model, options, grade, size, quantity and accessories upon arrival.			
7762				
7763	2. Measurement uncertainties are available upon request for Accredited ISO/IEC 17025 calibrations.			
7764	Please indicate on incoming paperwork if you require uncertainty data on the Calibration Certificate.			
7765				
7766	3. Upon evaluation, any repair costs will be presented for approval prior to proceeding with service unless otherwise specified.			
7767	Replacement of standard batteries and fuses required for calibration is not considered repair. Parts Charges apply.			
7768				
7769	4. Upon evaluation, all sub-contracted calibration quotes will be presented for approval prior to proceeding with service.			
7770	Sub-contracted turnaround times are beyond our control.			
7771				
7772	5. Orders are subject to applicable sales tax unless exemption certificate is provided.			
7773	E-mail sales tax documentation to A/R: Terri Mevers, tmevers@calservice.net			
7774				
7775	6. Please specify shipping method and/or shipping account number for material being returned.			
7776	If not specified, instruments will be returned UPS Ground with charges added to final Invoice.			
7777	Items are insured for estimated actual value.			
7778				
7779	7. The approximate turnaround time is 7 to 10 business days from the date we receive equipment.			
7780	Turn times are not guaranteed however, we do our best to fulfill all of our customer's expectations.			
7781	Turn times may vary due to a number of factors including type of equipment and the service requested.			
7782	Since PMI allows our customers to request calibrations at any time, this can result in a high volume of work without notice.			
7783				
7784	8. Expedite service may be available however, additional charges apply.			
7785	Please request pricing and confirm availability for rush calibration prior to shipment of equipment.			
7786				
7787	9. Onsite service is scheduled based upon the quoted instruments.			
7788	If Onsite instruments are not made available, or are unable to be calibrated for any reason, the base rate of \$800 per day,			
7789	per tech, will be charged. Onsite Quote does not include repair of instruments, and replacement of standard batteries and			
7790	fuses required for calibration is not considered repair. Parts Charges apply.
